- Figma
- Canva
- Wireframing & Prototyping
- User Interface Design

Frontend Development

- HTML5
- CSS3
- JavaScript
- React.js

Creative Tools

- DaVinci Resolve
- Final Cut Pro

PROFILE

Frontend Developer and UI/UX Designer with experience designing and developing responsive web applications. Skilled in creating user-centered interfaces using Figma and modern frontend technologies. Passionate about combining design and technology to build engaging digital experiences.

EXPERIENCE

INTERN – IT DEPARTMENT
RASTRIYA BEEMA COMPANY LIMITED, NEPAL
(JUNE 10, 2024 – JULY 10, 2024)

During my internship, I learned how SQL and database commands are used in real-world systems. I also gained practical knowledge of office networking, servers, and how cloud systems function in an organization.

PROJECTS

Kalavurse – Creative Marketplace Platform
(<https://kalavurse.com>)

Designed and developed a frontend platform connecting users with artists and creative professionals across Nepal. Features include hiring music composers, scriptwriters, visual artists, ordering custom songs, and purchasing custom artwork. Implemented contact and order management using Web3Forms API and integrated Tawk.to live chat support.

ExploreEyeOnline
(<https://exploreeyeonline.com>)

Frontend e-commerce platform for football jersey sales. Developed responsive product pages, inquiry forms using Web3Forms API, and real-time customer communication through Tawk.to live chat integration.

Tracking Geopolitical Double Speak Using a Dual Model Network for Narrative Analysis
(<https://github.com/Samyam30/geopoliticalAnalysis.git>)

College research project that analyzed geopolitical news narratives using AI-based text processing. Applied multilingual text preprocessing and BERT-based vectorization/embeddings to convert news articles into numerical representations, enabling narrative comparison, sentiment analysis, clustering, and detection of differences in communication patterns across audiences.

Beyond the Resume

- A creative thinker who expresses ideas through art, music, design, and technology. Inspired by minds like Leonardo da Vinci, Albert Einstein, and Stephen Hawking, I am passionate about creativity, curiosity, and continuous learning.
- I enjoy exploring how small creative details can make a meaningful impact and am constantly learning to blend technology, design, and artistic expression.
